

BATTERY CHARGING

HOW TO SAFELY CHARGE LITHIUM BASED BATTERIES

ALWAYS FOLLOW MANUFACTURERS' RECOMMENDATIONS FOR CHARGING.

NEVER LEAVE BATTERIES UNATTENDED WHILE CHARGING.

NEVER CHARGE "IN PARALLEL" BY CONNECTING MULTIPLE BATTERIES TO A SINGLE CHARGER. CHARGE BATTERIES INDIVIDUALLY.

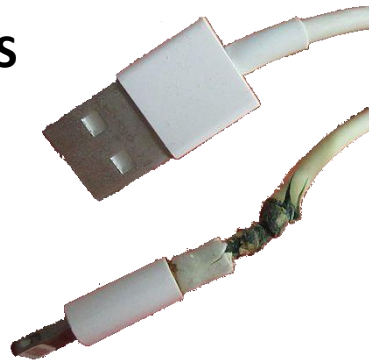

DESIGNATE A CHARGING AREA THAT IS **FREE FROM EXCESS COMBUSTIBLES.**

ALLOW BATTERY TO COOL BEFORE CHARGING.

ENSURE THE CHARGER AND ITS CABLES ARE IN **GOOD CONDITION** BEFORE USE.

CHARGE BATTERIES AND BATTERY POWERED DEVICES WITH CHARGERS FROM **REPUTABLE MANUFACTURERS.**

BE MINDFUL OF FRAUDULENT PRODUCTS.
