# GENERATING CHEMICAL LABELS WITH ChemWatch

## 1. Navigate to:

[research.columbia.edu/safety-data-sheets](https://research.columbia.edu/safety-data-sheets)

## 2. Follow the link to ChemWatch

## 3. Enter the desired chemical name into the search bar

Type in Material name, CAS No. or CW No.

## 4. Navigate through the populated safety data sheet

Gold SDS is the default selection

## 5. Select 'Labels' then navigate through label options

Render the desired label

## 6. Print, Share or Download

Apply desired label to corresponding chemical container
