To: Nuclear Cardiology, Nuclear Medicine and PET Suite  
From: Joshua L. Weintraub  
        Chairman, Joint Radiation Safety Committee  
Re: Authorization of Technologists to Administer Radionuclides by Injection for Diagnostic Purposes  

The Joint Radiation Safety Committee considered the curriculum vitae and qualifications of the following individuals to administer radionuclides to patients by injection.

The following technologists were approved as having adequate training and experience to administer radionuclides to humans by injection.
