Carbon Footprint Estimator

Estimating your carbon footprint is a way of gauging the impact of your activities on the environment. The smaller your footprint, the less carbon dioxide (CO2) you're generating, which helps slow climate change.

Your 2016 carbon savings:

Congratulations! By using the Stericycle Sharps Management Service, your organization is making significant reductions to its carbon footprint. Your annual carbon emission savings include:

Pounds of CO2 emissions prevented:

9,782

Pounds of plastic kept out of landfills:

16,831

Pounds of cardboard kept out of landfills:

623

CO2 emissions prevented equal to not burning this many gallons of gasoline:

504

CO2 emissions prevented equal to not using this many tanks of propane gas for barbeques:

185

Tell us what you think.
