Example – *Related Notices* in FOA

Department of Health and Human Services

Part 1. Overview Information

Participating Organization(s)	National Institutes of Health (NIH)
Components of Participating Organizations	National Institute on Aging (NIA)
Funding Opportunity Title	Mechanisms of Rejuvenation and Age-Acceleration in Heterochronic Blood Exchange (R01 Clinical Trial Not Allowed)
Activity Code	R01 Research Project Grant
Announcement Type	New
Related Notices	<p>May 14, 2020 - NIA Late Application Policy for NIA-Specific FOAs with Application Due Dates in May, June, and July 2020. See Notice NOT-AG-20-033.</p> <p>July 26, 2019- Changes to NIH Requirements Regarding Proposed Human Fetal Tissue Research. See Notice NOT-OD-19-128</p> <p>August 23, 2019- Clarifying Competing Application Instructions and Notice of Publication of Frequently Asked Questions (FAQs) Regarding Proposed Human Fetal Tissue Research. See Notice NOT-OD-19-137</p>

Which Forms do I use?

The **DUE DATE** drives the form selections:

- FORMS-E - due dates before May 25, 2020
 - Example, FOA due date is May 18, a late application policy allowed submission until June 30.
- FORMS-F - due dates on/after May 25, 2020
 - Example, you prepared application early, plan to submit May 20, but FOA due date is May 25.

If your due date is ...

You must use ...

On or before May 24, 2020, including:

FORMS-E application forms and instructions

Applications submitted under [NIH Late Policy](#) 2-week window of consideration for intended due dates on or before May 24, 2020

[Parent Announcements](#) posted prior to 2020 (if applying to a parent FOA)

Applications submitted by June 1, 2020 under NIH [Continuous Submission Policy](#) for the May 7, 2020 AIDS intended due date

On or after May 25, 2020, including:

FORMS-F application forms and instructions

All application types ([New](#), [Resubmission](#), [Renewal](#), [Revision](#))

[Parent Announcements](#) posted in spring 2020 (if applying to a parent FOA)

Applications submitted early for intended due dates on or after May 25, 2020

Applications submitted after June 1, 2020 under NIH [Continuous Submission Policy](#)

Continuous Submission Policy

- Change in Submission Deadlines and End of Recent Substantial Service Option (NOT-OD-20-060):
 - <https://grants.nih.gov/grants/guide/notice-files/NOT-OD-20-060.html>
- Discontinuing “**recent substantial service**”, earned for **temporary or ad hoc service** on a qualifying NIH study section at least 6 times in an 18 month period.
 - Reviewers who are currently eligible for continuous submission through their **recent substantial service** will remain eligible through the end of their term on **September 30, 2020**.
 - Reviewers who earn eligibility for service through June 30, 2020 will receive continuous submission eligibility from **August 1, 2020 through September 30, 2021**.
- Continuous submission privileges for **appointed regular members** of NIH committees are unchanged.
- CSR.cont.sub.comm@mail.nih.gov
- See their FAQs: <https://grants.nih.gov/faqs#/continuous-submission.htm>

Continuous Submission Receipt Dates

For the Advisory Council Round:	Non-AIDS Standard Application Due Dates		Continuous Submission Non-AIDS Application Receipt Period Ends
		<i>R01</i>	<i>R21, R34</i>
<i>May</i>	October 5 November 5	October 16 November 16	December 10
<i>October</i>	February 5 March 5	February 16 March 16	April 10
<i>January</i>	June 5 July 5	June 16 July 16	August 10
For the Advisory Council Round:	AIDS Application Due Dates		Continuous Submission AIDS Application Receipt Period Ends
		<i>R01, R21, R34</i>	<i>R01, R21, R34</i>
<i>May</i>	January 7		February 1
<i>October</i>	May 7		June 1
<i>January</i>	September 7		October 1

- Direct any submission issues, including Grants.gov rejection messages indicating the opportunity is closed, to the [eRA Service Desk](#).

Continuous Submission/Late Application Policy

- Temporary or ad hoc reviewers who are not eligible for continuous submission may be eligible to use the late submission window as described in the [NIH Late Policy](#).
- ***How does Continuous Submission relate to the NIH Late Policy?***
- Continuous Submission applies to R01, R21, and R34 applications submitted by continuous submission eligible PD/PIs and MPIs to FOAs with standard due dates, including standard AIDS due dates.
- The [NIH Late Policy](#) applies to
 - All other types of applications submitted by continuous submission eligible PD/PIs and MPIs.
 - All applications submitted by all other PD/PIs and MPIs.

[10]

COVID-19: Proposal Considerations

- Should I address impact of COVID-19 in my NIH/AHRQ proposal?
- Guidance for NIH Peer Reviewers:
- <https://grants.nih.gov/grants/files/Coronavirus-update-Guidance-for-Peer-Reviewers.pdf>
- “Assume that issues resulting from the coronavirus pandemic will be resolved prior to award, and not allow concerns about temporary, emergency situations to affect their scores.”

[11]

Budgeting Guidance

Cost principles:

- Reasonableness (including necessity)
- Allocability
- Consistency
- Allowability/Conformance

NIH Grants Policy Statement, section 7.9, *Allowability of Costs/Activities*:

https://grants.nih.gov/grants/policy/nihgps/HTML5/section_7/7.9_allowability_of_costs_activities.htm

Develop your Budget:

<https://grants.nih.gov/grants/how-to-apply-application-guide/format-and-write/develop-your-budget.htm> [12]

Policy Change/FORMS-F

NIH/AHRQ: Career Development Awards

- NOT-OD-20-090 - <https://grants.nih.gov/grants/guide/notice-files/NOT-OD-20-090.html>
- Added instructions about rigor, experimental design, and quantitative approaches to the “Candidate Information and Goals for Career Development” section.
- “Describe the new or enhanced research skills and knowledge you will acquire as a result of the proposed award, including, as applicable, expertise in rigorous research design, experimental methods, quantitative approaches and data analysis and interpretation.”

Candidate Section

2. Candidate Information and Goals for Career Development

Required. This attachment and the Research Strategy attachment are limited to a combined total of 12 pages unless otherwise stated in the announcement.

attachment

[13]

Policy Change/FORMS-F

NIH/AHRQ: Career Development Awards

- Applicants to **diversity-related** FOAs (e.g., diversity-related K01) will be required to **include an attachment** describing how the candidate's participation would further the goals of the program.
- Added new "Description of Candidate's Contribution to Program Goals" attachment.

Environment and Institutional Commitment to Candidate Section

10. Description of Institutional Environment	<input type="checkbox"/>	Required. Limited to 1 page.	<input type="button" value="Add Attachment"/>	<input type="button" value="Delete Attachment"/>	<input type="button" value="View Attachment"/>
11. Institutional Commitment to Candidate's Research Career Development	<input type="checkbox"/>	Required. Limited to 1 page.	<input type="button" value="Add Attachment"/>	<input type="button" value="Delete Attachment"/>	<input type="button" value="View Attachment"/>
12. Description of Candidate's Contribution to Program Goals	<input type="checkbox"/>	Must be completed by by career applicants to diversity-related funding opportunity announcements (K01 and K22), not required for others.	<input type="button" value="Add Attachment"/>	<input type="button" value="Delete Attachment"/>	<input type="button" value="View Attachment"/>

New “Description of Candidate’s Contribution to Program Goals” attachment

- The sponsoring institution must provide a document on institutional letterhead that explains how the candidate’s participation will further the goals of the career development program to promote diversity in health-related research.
- Must be dated and signed by an institutional official. In most cases, this will be the dean or the chairman of the department.

[15]

Policy Change/FORMS-F

NIH/AHRQ: Individual Fellowships (F's)

- NOT-OD-20-090 - <https://grants.nih.gov/grants/guide/notice-files/NOT-OD-20-090.html>
- **Applicant's Background and Goals for Fellowship Training**
- **Training Goals and Objectives**
- Identify the skills, theories, conceptual approaches, etc., to be learned or enhanced during the award, including, as applicable, expertise in rigorous research design, experimental methods, quantitative approaches, and data analysis and interpretation, as applicable.

Fellowship Applicant Section

2. * Applicant's Background and Goals for Fellowship Training

Required. Limited to 6 pages.

Add Attachment

Delete Attachment

View Attachment

[16]

Policy Change/FORMS-F

NIH/AHRQ: Individual Fellowships (F's)

- In the Research Strategy section, fellowship candidates will be expected to describe (a) the strengths and weaknesses in the rigor of the prior research that serves as the key support for the proposed project, (b) plans to address any weaknesses in the rigor of the prior research, (c) how the experimental objectives proposed will achieve robust and unbiased results, and (d) how relevant biological variables are factored into research designs and analyses.

Research Training Plan Section		
3. * Specific Aims	Required. Limited to 1 page.	Add Attachment Delete Attachment View Attachment
4. * Research Strategy	Required. Limited to 6 pages.	Add Attachment Delete Attachment View Attachment
5. * Respective Contributions	Required. Limited to 6 pages.	Add Attachment Delete Attachment View Attachment
6. * Selection of Sponsor and Institution	Required. Limited to 1 page.	Add Attachment Delete Attachment View Attachment
7. Progress Report Publication List (for Renewal applications)		Add Attachment Delete Attachment View Attachment
8. * Training in the Responsible Conduct of Research	Required. Limited to 1 page.	Add Attachment Delete Attachment View Attachment

- If applicable, fellowship candidates will be required to include an attachment describing how they will authenticate key biological and/or chemical resources.

17. Authentication of Key Biological and/or Chemical Resources		Add Attachment	Delete Attachment	View Attachment

Discussion Guide for K and F-applicants

Let's Talk About Rigor and Reproducibility!

This discussion guide is intended for fellows and early-career researchers initiating conversations with mentors and others on addressing NIH's Rigor and Reproducibility [requirements for career development and training goals](#). For more information on NIH's Rigor and Reproducibility including webinars and presentations, see the [ReaDI Program's Reproducibility webpage](#).

Applicants are expected to address any new research skills planned to acquire in areas of rigorous research design, experimental methods, quantitative approaches, and data analysis and interpretation. For each of the areas below, list what research skills you will require to learn and further develop to carry-out the research project?

Rigorous Research Design (Review Planning a Rigorous Experiment checklist)	
Experimental Methods

Policy Change/FORMS-F

NIH/AHRQ: Individual Fellowships (F's)

- The sponsoring institution must provide a document on institutional letterhead that explains how the candidate's participation will further the goals of the fellowship program to promote diversity in health-related research.
- Must be dated and signed by an institutional official. In most cases, this will be the dean or the chairman of the department.

Institutional Environment and Commitment to Training Section	
11. Description of Institutional Environment and Commitment to Training	<input type="checkbox"/> Required for F05, F30, F31, F32, F33, F37, F38, F12, F99/K00. Limited to 2 pages. Includes Additional Education Information for F30 and F31 applications. attachment
12. Description of Candidate's Contribution to Program Goals	<input type="checkbox"/> Must be completed by candidates for diversity-related fellowships, not required for others. attachment

Single IRB

- **For NIH applicants, the single IRB plan is no longer required.** Do not provide an attachment. The applicant must provide a statement naming the sIRB of record in the Just-in-Time submission prior to award.
- Still required for AHRQ
- Career Development and Fellowship Applications are now subject to Single IRB Policy. – must select Yes or No in section 3.2 of Study Record
- Still need to budget for Single IRB costs

[21]

Single IRB

- See HRPO site: <https://research.columbia.edu/single-irb-review-multi-site-research>
- If you are conducting non-exempt human subjects research and research will be conducted at multiple domestic sites:
 - Immediately complete the [CU sIRB Request Form](#)
 - Email it to irboffice@columbia.edu
- Process the same for when Columbia is the PTE, or when Columbia is the subrecipient.
- **Single IRB is mandatory for all federal agencies** (with the exception of FDA)

[22]

Am I doing Human Subjects (HS) Research?

Use the Human Subjects Decision Tree:

<https://grants.nih.gov/policy/humansubjects/hs-decision.htm>

Human Subjects Research

Research involving a living individual about whom data or biospecimens are obtained/used/studied/analyzed through interaction/intervention, or identifiable, private information is used/studied/analyzed/generated

Examples of human subjects research include:

- Collecting blood
- Administering medicine
- Collecting data
- Conducting a survey
- Interviewing
- Conducting a focus group
- Changing participants' environment
- Administering a psychological test
- Testing a new educational technique

Included in the NIH application:

- ✓ Protection of Human Subjects attachment

If funded, grantees will need:

- ✓ An Institutional Federal-Wide Assurance (FWA) with OHRP
- ✓ IRB approval or determination of exemption
- ✓ Human Subjects education* even for exemptions

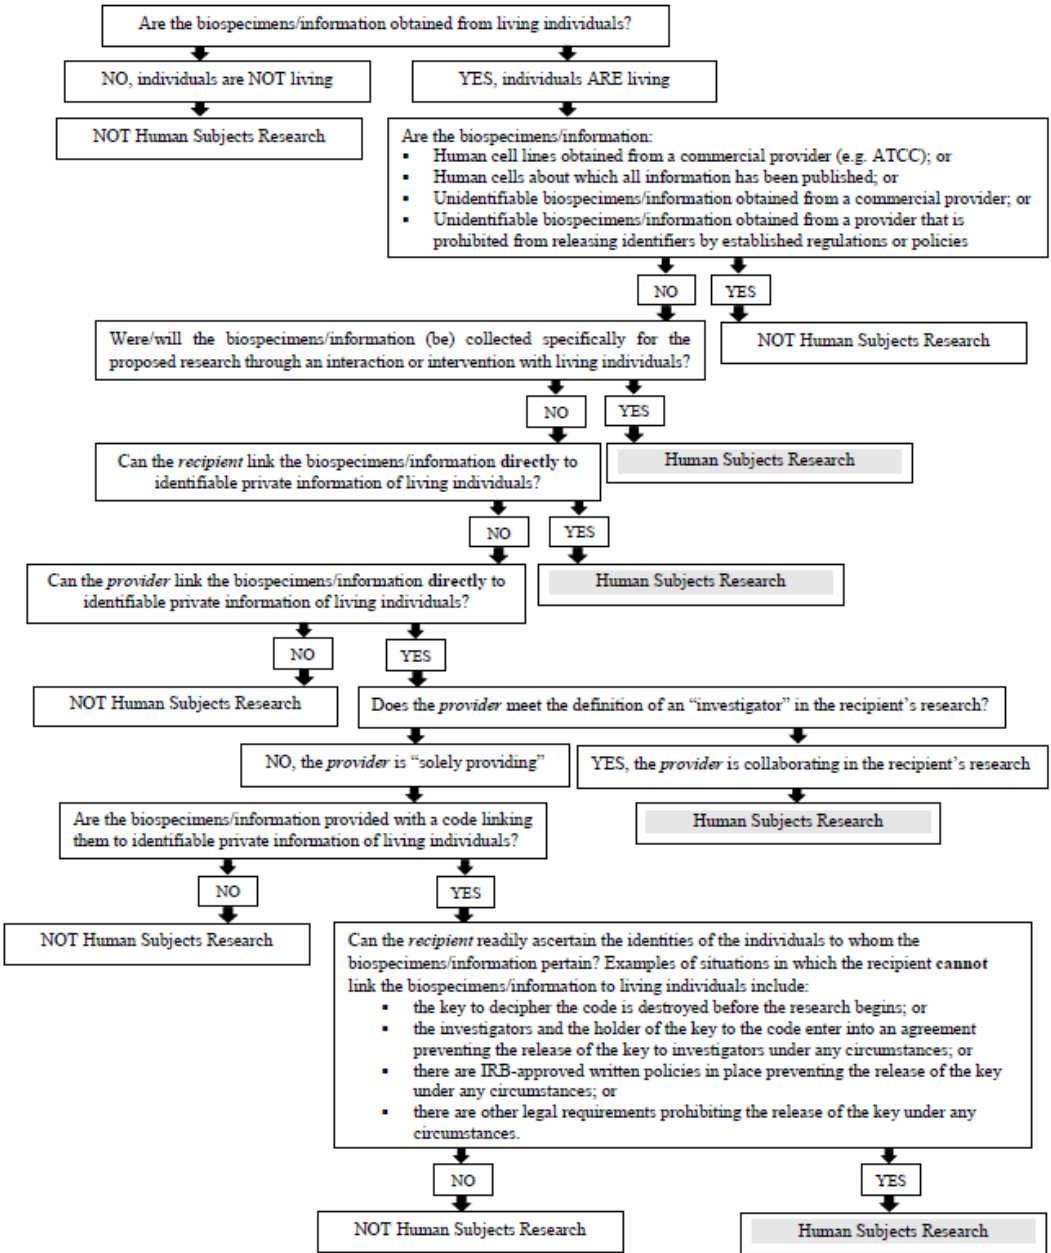

If research meets the criteria for one of the eight categories of activities that are **exempt** from the federal regulations, not all of the above may apply. Some of the exemptions require a limited IRB review (7 and 8, and some designs under 2 and 3).

Exemptions:

Exemption 1 Conducted in an educational setting involving normal education practices	Exemption 2 Use of educational tests, surveys, interviews, or observations of public behavior	Exemption 3 Use of benign behavioral interventions in adults	Exemption 4 Collection/study of data or specimens if publicly available or recorded such that subjects cannot be identified* <small>*May be identifiable in limited cases. See 546.104(d)(4)(iii) and (iv)</small>
Exemption 5 Public service program research or demonstration projects	Exemption 6 Taste and food quality evaluations	Exemption 7 Storage of identifiable information or biospecimens for secondary research use. Broad consent and limited IRB review are required.	Exemption 8 Secondary research use of identifiable information or biospecimens. Broad consent and limited IRB review are required.

<https://grants.nih.gov/sites/default/files/human-subjects-research-infographic.pdf>

Research Involving Private Information or Biospecimens

Research Involving Private Information or Biospecimens may also be considered Human Subjects Research. See flowchart:

<https://grants.nih.gov/grants/policy/hs/private-information-biospecimens-flowchart.pdf>

We come back to this later on in this presentation:

Use of Human Specimens and/or Data

* Does any of the proposed research in the application involve human specimens and/or data? Yes No

Provide an explanation for any use of human specimens and/or data not considered to be human subjects research.

Please note: this document is intended to be a resource only. Final decisions should be made in accordance with [45 CFR 46](#).

If YES, is it Exempt of Non-Exempt?

- Contact the IRB to discuss and clarify.
- Has an impact on the sections you complete in the PHS Human Subjects/Clinical Trial form and study records.
- Impact on Single IRB if multiple sites are involved.
- IRB doesn't designate Exemptions 7 and 8.
- The IRB makes the final determination when a protocol is submitted during JIT.

[26]

Exempt Human Subjects Research

8 Exemptions

Consider

1

Meets the definition of human subjects research.

Exempt studies involve human subjects research: research involving a living individual about whom data or biospecimens are obtained/used/studied/analyzed through interaction/intervention, or identifiable, private information is used/studied/analyzed/generated

2

Meets the criteria of one or more of the following exemptions:

Exemption 1: conducted in an educational setting using normal educational practices*

*Cannot include any other procedures, such as collection of clinical data or biospecimens

Exemption 2: uses educational tests, surveys, interviews, or observations of public behavior*

*Limited IRB review may be required.

Exemption 3: benign behavioral interventions in adults*

*Limited IRB review may be required.

Exemption 4: *secondary* research using identifiable information or biospecimens if publicly available, or recorded such that subjects cannot be re-identified*

*See §46.104(d)(4)(ii), (iii), and (iv) for all criteria

Exemption 5: public service program research or demonstration projects

Exemption 6: taste and food quality evaluations

Exemption 7: storage or maintenance of identifiable information or biospecimens for *secondary* research use. *Broad consent* and *limited IRB review* are required.

Exemption 8: *secondary* research using identifiable information or biospecimens. *Broad consent* and *limited IRB review* are required.

NIH Requirements:

- Human Subjects education.
- Inclusion tracking for all except exemption 4.

45 CFR 46 Requirements:

- Limited IRB review for exemptions 7 & 8, and some study designs under 2 & 3.
- Broad consent for exemptions 7 & 8.

Cannot involve **prisoners**, unless research includes a broader population that happens to include prisoners.

Cannot involve **children** in:

- Exemption 2 research if data is recorded with identifiers, for survey or interview procedures, or for observations of public behavior if investigators participate in the activity being observed.
- Exemption 3 research.

For more information see the [NIH OER Human Subjects Research website](https://www.fda.gov/oc/ohrt/).
Send questions/comments to OER-HS@nih.gov.

If non-exempt, is it an NIH-defined Clinical Trial?

Use the Clinical Trial Decision Tool:

- <https://grants.nih.gov/ct-decision/index.htm>

The four questions:

- Does the study involve human participants?
- Are the participants prospectively assigned to an intervention?
- Is the study designed to evaluate the effect of the intervention on the participants?
- Is the effect being evaluated a health-related biomedical or behavioral outcome?

Also see NIH Protocol Templates and e-Protocol Writing Tool:

<https://grants.nih.gov/policy/clinical-trials/protocol-template.htm>

- Phase 2 or 3 clinical trials that require Investigational New Drug applications (IND) or Investigational Device Exemption (IDE) applications
- Behavioral and social sciences research involving humans

ReaDI Program Resources: <https://research.columbia.edu/clinical-and-health-sciences>

[28]

Select the Appropriate FOA

Understanding FOAs:

- <https://grants.nih.gov/grants/how-to-apply-application-guide/prepare-to-apply-and-register/understand-funding-opportunities.htm>
- Applications that include **clinical trials** must be submitted in response to an FOA that allows clinical trials (even if other studies on the same application are not clinical trials).
- Make sure that the NIH Institute or Center that might be interested in your research is **listed as a participating organization** in the FOA.
- Notices of special interest (NOSIs) may identify NIH Institutes or Centers participating in the notice initiative that are not listed in the FOA used for submission.
- Return to the FOA to check the **Related Notices** section before submission to ensure you are in line with the most recent guidance.
 - Don't turn the FOAs into PDFs! Updated in real-time.

Example: New PA-20-183 for FORMS-F

Research Project Grant (Parent R01 Clinical Trial Required) (PA-20-183)

Contacts and Special Interests

Release Date: May 05, 2020

Expiration Date: May 8, 2023

R01 Clinical Trial Required Participating Institutes and Centers:

- NIH Institutes and Centers that **accept** Investigator-Initiated R01 applications in response to the Parent R01 Clinical Trial Required Announcement - (PA-20-NNN): NHGRI, NEI, NIA, NIAAA, NIAID, NIDA, NIDCD, NIEHS, NIGMS, NIMHD, NINR
- NIH Institutes and Centers that only accept Investigator-Initiated R01 applications proposing **mechanistic clinical trials** in response to the Parent R01 Clinical Trial Required Announcement (PA-20-NNN): NCCIH, NHLBI, NIAMS, NIMH, NINDS
- NIH Institutes and Centers that **DO NOT ACCEPT** applications in response to the Parent R01 Clinical Trial Required Announcement but ONLY accept R01 applications proposing clinical trial(s) in response to their specific funding opportunity announcements: NCI, NIBIB, NICHD, NIDCR, NIDDK (PA-18-330), NLM, FIC, NCATS

When in doubt, talk to the Scientific/Research Contact at the specific Institute named in the FOA.

[30]

Notices of Special Interest (NOSIs)

- Video on NOSIs: <https://youtu.be/LhXW67LNblc>
- NOSI, you **must** include the NOSI number in Box 4B (the Applicant Routing Identifier) on the proposal SF 424 cover page.

4. A. FEDERAL IDENTIFIER / 4. B. AGENCY ROUTING IDENTIFIER / 4. C. PREVIOUS TRACKING IDENTIFIER	
Federal Identifier	<input type="text"/>
Agency Routing Identifier	<input type="text"/>
Previous Grants.gov Tracking ID	<input type="text"/>

FORMS-F Proposal Checklists

- Courtesy of VP&S Office for Research:
- <https://research.ps.columbia.edu/content/checklists>
- Grant Starter Kit:
- <https://research.ps.columbia.edu/content/grant-starter-kit>

Resubmission?

- Careful to switch to FORMS-F
- Make sure to use the latest Biosketch format, new expiration date: <https://grants.nih.gov/grants/forms/biosketch.htm>
- Tried SciENcv? <https://www.ncbi.nlm.nih.gov/sciencv/>

OMB No. 0925-0001 and 0925-0002 (Rev. 03/2020 Approved Through 02-28-2023)

BIOGRAPHICAL SKETCH

Provide the following information for the Senior/key personnel and other significant contributors.
Follow this format for each person. **DO NOT EXCEED FIVE PAGES.**

NAME: Hunt, Morgan Casey

eRA COMMONS USER NAME (credential, e.g., agency login): huntmc

POSITION TITLE: Associate Professor of Psychology

EDUCATION/TRAINING *(Begin with baccalaureate or other initial professional education, such as nursing, include postdoctoral training and residency training if applicable. Add/delete rows as necessary.)*

INSTITUTION AND LOCATION	DEGREE (if applicable)	Completion Date MM/YYYY	FIELD OF STUDY
--------------------------	---------------------------	----------------------------	----------------

New Expiration Dates

Expiration Date: old (FORMS-E) 03/31/2020;

New (FORMS-F) date 02/28/2023

New Question: Human Fetal Tissue (HFT)

New on Cover Page Supplement

4. Human Fetal Tissue Section

* Does the proposed project involve human fetal tissue obtained from elective abortions? Yes No

If "Yes" then provide the HFT Compliance Assurance

Add Attachment

Delete Attachment

View Attachment

If "Yes" then provide the HFT Sample IRB Consent Form

Add Attachment

Delete Attachment

View Attachment

- If Yes, go to application instructions for specific information about these two attachments:
- <https://grants.nih.gov/grants/how-to-apply-application-guide.html>

[35]

PHS Human Subjects/Clinical Trial Information Form and Study Records

- Updated Expiration Date
- Reworked landing page to require an answer and supporting explanation (if applicable) for the question “Does any of the proposed research in the application involve human specimens and/or data?” for all applications

Study record changes

- Defaulted Clinical Trial Questionnaire question “1.4.a Does the study involve human participants?” to Yes, since study records are only available when the answer to the “Are Human Subjects Involved?” question on the R&R Other Project Information form is Yes
- Separated “Inclusion of Women, Minorities, and Children” attachment into two attachments – “Inclusion of Individuals Across the Lifespan” and “Inclusion of Women and Minorities”
- Renamed “Enrollment of First Subject” field to “Enrollment of First Participant”
- Added “Inclusion Enrollment Report Title” field to the Inclusion Enrollment Report
- Removed “Brief Summary” attachment
- Renamed “Narrative Study Description” attachment to “Detailed Description”
- Added new question and checkbox – “Is this an applicable clinical trial under FDAAA?”
- Renumbered form fields, as needed

Human Specimens and/or Data

Use of Human Specimens and/or Data

* Does any of the proposed research in the application involve human specimens and/or data? Yes No

Provide an explanation for any use of human specimens and/or data not considered to be human subjects research.

Add Attachment

Delete Attachment

View Attachment

All applicants are required to answer this question. The explanation attachment is now always available. Previously, the question and attachment were only available when Human Subjects was NO, which didn't allow for scenarios where an application involved both human subjects and human specimens and/or data.

[37]

Attachment – if not human subjects research

Remember that flowchart? Slide 25: **Research Involving Private Information or Biological Specimens.**

- You must provide an explanation for any use of human specimens and/or data not considered to be human subjects research.

This explanation should include:

- information on who is providing the data/biological specimens and their role in the proposed research;
- a description of the identifiers that will be associated with the human specimens and data;
- a list of who has access to subjects' identities; and
- information about the manner in which the privacy of research participants and confidentiality of data will be protected.

[38]

Study Record: 1.4.a. defaults to YES

* 1.4. Clinical Trial Questionnaire

If the answers to all four questions below are yes, this study meets the definition of a Clinical Trial.

1.4.a. Does the study involve human participants?

Yes No

1.4.b. Are the participants prospectively assigned to an intervention?

Yes No

1.4.c. Is the study designed to evaluate the effect of the intervention on the participants?

Yes No

1.4.d. Is the effect that will be evaluated a health-related biomedical or behavioral outcome?

Yes No

If you answered "Yes" to all the questions in the Clinical Trial Questionnaire, this study meets the definition of a clinical trial.

Refer to the table below for information about what sections of this form are required, based on your answers to Question 1.4 "Clinical Trial Questionnaire."

Form Section	If you answered "yes" to <u>all</u> the questions in the Clinical Trial Questionnaire	If you answered "no" to <u>any</u> of the questions in the Clinical Trial Questionnaire
Section 2 - Study Population Characteristics	Required	Required
Section 3 - Protection and Monitoring Plans	Required	Required
Section 4 - Protocol Synopsis	Required	Do not complete
Section 5 - Other Clinical Trial-related Attachments	Required if specified in the FOA	Do not complete

Section 2 – Study Population Characteristics

- Separated “Inclusion of Women, Minorities, and Children” attachment into two attachments
 - “Inclusion of Individuals Across the Lifespan”
 - “Inclusion of Women and Minorities”

2.3. Age Limits

Minimum Age

Maximum Age

2.3.a. Inclusion of Individuals Across the Lifespan

Enrollment of First Participant

- Renamed “Enrollment of First Subject” field to “Enrollment of First Participant”

2.8. Enrollment of First Participant

A screenshot of a web form. It features a long, empty text input field on the left. To its right is a small calendar icon with a blue header and a grid of dates. Further right is another empty text input field, followed by a dropdown menu with a downward-pointing arrow.

Inclusion Enrollment Reports (IERs)

2.9. Inclusion Enrollment Reports(s)

Add New Inclusion Enrollment Report

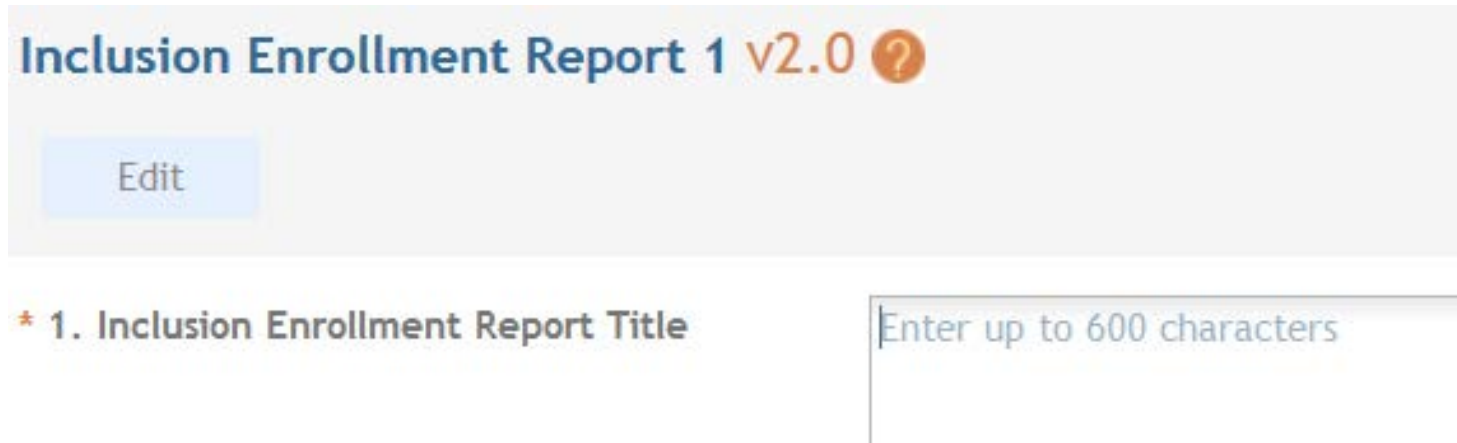

Entry #	Enrollment Location Type	Enrollment Location	Action
---------	--------------------------	---------------------	--------

Nothing found to display.

Added a field number.

IERs continued

- Added a TITLE field in the IER.

The screenshot shows a user interface for an Inclusion Enrollment Report (IER). At the top, the title "Inclusion Enrollment Report 1 v2.0" is displayed in blue text, followed by a small orange question mark icon. Below this, there is a light blue button labeled "Edit". Underneath the button, a form field is visible with the label "* 1. Inclusion Enrollment Report Title" and a placeholder text "Enter up to 600 characters".

Let's Talk IERs

- Each proposed study, unless it falls under Exemption 4, must contain at least one IER.
- Max. 20 IERs per Study Record
- **More than one site?**
 - May create one IER or separate, multiple IERs to enable reporting by study or by site, depending on the scientific goals of the study and whether **monitoring of inclusion enrollment would benefit from being combined or separated.**
- Non-U.S. sites must be reported separately from participants enrolled at U.S. sites, even if they are part of the same study.
- Please review the FOA to determine whether there are any other specific requirements about how to complete the IER.

Human Subjects System (HSS)

- The HSS system is a shared system that enables grant recipients to electronically report and update their data on human subjects and clinical trials to NIH; and for NIH agency staff to monitor and manage the data.
- The HSS is automatically populated by human subjects and clinical trial data entered by the principal investigator (PI) on the ***Human Subjects and Clinical Trial Information form***.
- This data is then made available to PIs and signing officials (SO) through a link that will be available on the eRA Commons Status screen and the Research Performance Progress Report (RPPR).

Section 4 – Protocol Synopsis (Clinical Trials only)

- Removed “Brief Summary” attachment.
- Renamed “Narrative Study Description” attachment to “Detailed Description”
 - To reduce overlap of requested information, and align with clinicaltrials.gov.

SECTION 4 - PROTOCOL SYNOPSIS

4.1. Study Design

4.1.a. Detailed Description

Enter up to 32000 Characters

Section 4 continued

- Added new question and checkbox – “Is this an applicable clinical trial under the Food and Drug Administration Amendments Act (FDAAA)?”
- For more information, see <https://clinicaltrials.gov/ct2/manage-recs/faq#act>

4.6. Is this an applicable clinical trial under FDAAA?

Yes No

Optional PHS Assignment Request Form

- The PHS Assignment Request Form was reworked to improve usability.
 - Clarified instructional text
 - Improved field labels
 - And a new “Rationale for assignment suggestions” text box.
- Removed fields
 - Do Not Assign to Awarding Components
 - Do Not Assign to Study Sections
