

Researcher Welcome Guide

Welcome to GrantForward!

Researchers can benefit from our complete award-seeking cycle, including a comprehensive database of funding opportunities across all disciplines, a worldwide sponsor directory, and additional sources of pre-solicitations and funded awards. You can also take advantage of many advanced utilities, such as getting funding alerts, receiving grant recommendations based on your research interests, and matching grants delivered from administrators, etc.

In this Researcher Guide, you will learn:

Creating Your Account

Creating Your Account

To use the search functionality and basic features on GrantForward, you must create your account first. To make your account, just follow these steps:

1. Go to GrantForward.com
2. Click on **Sign Up** on the upper right side of the GrantForward homepage.
3. On the **Create an Account** page, enter your institution's email and the necessary information for your account.

grant forward By Cazoodle Create an Account on GrantForward

If your institution has already subscribed or had trial access to GrantForward, then you can create an account to use all the features of GrantForward at no extra cost. Simply input your email and we will check whether your institution has access to GrantForward.

Email * myname@cazoodle.com

Name * My Name

Password *

Confirm Password *

Institution Name Cazoodle

The email is valid for creating an institutional account.
The administrators from the institution have full authorities over managing accounts and even deleting accounts that do not truly belong to their institution.

By clicking on "Create My Account", you acknowledge that you have read and agree to the [Terms of Use](#)

Create my Account

4. Check your inbox (and the spam folder too!) for a confirmation email. Confirm by clicking on the link in the email. Then, you can log in to use GrantForward-- click on **Log In** on the upper right side of the screen.

For more guidance, you can view a step-by-step demo: [Tutorial: How Can I Create an Account?](#)

Trying a Grant Search

Next, you can try out how to search on GrantForward by keywords/phrases and advanced filters to find funding opportunities that match your research topics. Under the **Grants** tab, choose **Search Grant Opportunities**.

Executing a Search

1. Enter keywords/phrases in the input fields of **All**, **Any**, or **None of the Keywords/Phrases** with matching requirements accordingly.

Tip: You can click on the  icon to see the explanation for each box.

The screenshot shows the 'Grant Search' interface. On the left, there are three input fields labeled 'All of the Keywords/Phrases', 'Any of the Keywords/Phrases', and 'None of the Keywords/Phrases'. The first field contains the example text 'E.g: information "data science" "data integration"'. Below these fields is a link 'More Operators'. To the right of the input fields are three information icons (i). A tooltip is visible next to the middle icon, stating: 'Opportunities that contain one or more of these search terms will be displayed in the results. You can use space or comma to separate the terms.' At the bottom, there is a 'Search' button with a magnifying glass icon and a 'Reset To Default' button.

2. Press Enter or click on the **Search** button to execute the search.
3. You will see the results quickly pop up for you to shift through. The results, by default, are sorted by **Relevance** to your keywords.

Chatting with AI Query Assistant

1. On the [Grant Search](#) page, choose **AI Query Assistant**.
2. You can start the conversation with the AI assistant by selecting the query presets.

The screenshot shows the 'Grant Search' interface with the 'AI Query Assistant' selected in the left sidebar. The chat area displays a greeting: 'Hello and welcome to GrantForward. Can you tell me about the funding opportunities you are looking for?' followed by the time '4:28 am'. Below the greeting are three query presets: 'Grants about a topic...', 'Grants for a researcher/departement...', and 'Grants for a project...'. A red box highlights these presets, and a red arrow points to them with the text 'some query presets to start your search'. At the bottom, there is a text input field and a 'Submit' button.

3. As you continue the conversation, there will be more prompts for you to choose from and make the assistant help you conduct a good search.

4. Besides using the presets, you can also freely enter your conditions in the chat box to find specific funding opportunities with the assistant.

Viewing Search Results

After running a search, you can view and shift through the results.

1. At the top of the results, you can see the summary of the search conditions. You can sort the results by Relevance, Deadline, or other properties. You can also choose **View Options** to select the information you want to show for each grant.

Mental Health Safety Net Grant
State of Minnesota
Minnesota Department of Health

Minnesota Statute 145.929 authorizes grants to support eligible mental health providers serving uninsured youth under age 21. Funds are awarded each year proportionally among all eligible programs based on the total number of uninsured patients under age 21 served. Eligible applicants include Community Mental Health Centers or Clinics designated under Minnesota Statute section 245.62, and Nonprofit Community Mental Health Clinics designated as an Essential Community Provider under Minnesota Statute section 62Q. Providers must offer free or reduced-cost mental health care to low-income patients with family incomes below 275 percent of federal poverty guidelines who do not have health insurance coverage. Applicants are required to disclose organizational changes and must not receive more than one grant under the specified safety net programs.

2. The matching keywords in each grant are highlighted, so you can easily scan the results. GrantForward also tags relevant keywords for each grant called "annotated keywords". These annotated keywords help you understand the content of funding opportunities and also help us facilitate matching grants to your search semantically and contextually.

30 Oct, 2025

The program is established by the New Jersey Department of Education to support Local Education Agencies in implementing depression screening programs. It is a continuation grant open to agencies selected in year 1 through a competitive process. The grant aims to identify students at risk of depression and related symptoms, providing resources for mental health support. The project period 3 runs from January 1, 2026, to December 31, 2026, with awards ranging from \$66,909 to \$90,264 depending on student enrollment.

Sponsor Contact Information

Adding Search Filters

To further narrow down your search results beyond topical relevance (by keywords/phrases), you can add more search filters -- including Sponsors, Deadline, Amount, Sponsor Types, Grant Types, Applicant Types, etc.

1. On the **Search Grant Opportunities** page, you will see all filters listed on the left side.
 2. Set the filters to add more criteria for matching your desired grants. E.g., you can select "Federal/ State" in the Sponsors Type to look for funding from government or federal.
- To learn more information about each filter, move your mouse cursor over the icon .
 - After adding any filters, the current search conditions will be summarized and displayed above the search results. You can remove a condition by clicking on its "x" in the search summary.

The screenshot displays the 'Search Grant Opportunities' interface. On the left, a sidebar lists filters: Sponsors, Sponsor's Country, Categories, Deadline, Status, Amount, and Sponsor Types. The 'Sponsor Types' filter is expanded, showing options like Federal/National, State/Provincial, Professional Association/Society, Foundation, Corporate, Academic, International, and Other. The main area shows search filters applied: 'Has keywords: "mental health"', 'With current status: Continuous, Open', 'Currency: USD', 'Of sponsor types: Federal/National', and 'Not of grant types: Internship/Work-study, Fellowship/Scholars...'. It indicates 'Found 172 results in 0.99 seconds.' and shows pagination (1-5) and sorting options (Relevance). A search result for 'Neurosciences and Mental Health: programme' by the UK Research and Innovation Medical Research Council is displayed, including a description, keywords (mental health, neuroscience, cognitive science, integrative neuroscience, sensory neuroscience, human neuroscience, neuroimaging, neurodegenerative diseases, behavioral neuroscience, brain), and amount (\$1,336,541). It also shows researcher counts: '+ 316 researchers in your institution' and '+ 79649 researchers from other institutions'.

- The search results will automatically be updated with added filters.

For more guidance, you can view a step-by-step demo: [Tutorial: What Advanced Search Filters Can I Use for Searching Grants?](#)

Managing Search Results

After setting up your search, you can export, share, or save your search to track results and receive grant alerts.

Exporting Search Results

1. To export a list of search results from your search, click on the **Export** button above the search results.

2. In the dialog box, you can select the file format, the number of results, and the fields to export. Then, click **Export** to download the file.

Sharing a Search

1. Share your search under URL format with your friends/colleagues by clicking on the URL button above the search results.

2. You can send the shareable URL directly to your friends/colleagues or send it with additional messages via email, and the recipients will be able to view your search with full conditions.

For more guidance, you can view a step-by-step demo: [Tutorial: How Can I Share Selected Grants With My Colleagues?](#)

Saving/Loading a Search

After setting up a search, instead of recreating the same search every time you want to see new grant opportunities within the selected search criteria, you can set up a saved search with email alerts to automatically get notifications. Saved searches can now also be loaded directly on the search page or assigned as a default condition.

1. To save your search, after setting your search up by keywords/phrases and other filters, click on the **Save/Load** button above the search results, then choose **Save a Search**.

- In the pop-up dialog box, you can choose to update a previously saved search or create a new one. Then set the frequency (daily, weekly, or monthly) for receiving alerts whenever there are new grants updated to the list.
- To view or edit your saved searches, you can find them at the [Saved Searches](#) page under the **Grants** tab.

2. Saved searches can now also be loaded directly on the search page. To load a search, click on the **Save/Load** button, then select **Load a Search**.

- In the pop-up dialog box, you can choose an existing saved search, then the previous search results with full search conditions will be loaded. You can also make this search your default search condition so that it will be displayed whenever you visit the Grant Search page.

For more guidance, you can view a step-by-step demo: [UseCase: Monitor and get Alerts for New Grant Opportunities](#)

Managing Grants

We support many advanced features to help users get better grant management. You can build your lists including the best fit grants and then keep track of them.

Exporting a Grant

1. You can export an individual grant by clicking on the title of the desired grant to view the grant detail page.
2. Click on the **Export** button under the grant title.

3. In the pop-up dialog box, you can choose the file format and the fields to export. Then, click on **Export** to download the grant.

Adding a Grant to Favorites

1. There are two ways allowing you to mark a grant as your favorite to view it later quickly without having to set up the search and find it again.
- You can click on the  button displayed on the right side of the grant title when this grant is shown in the search results.

Neurosciences and Mental Health: programme 31 Jan, 2026

UK Research and Innovation
Medical Research Council

The program aims to fund a coordinated set of related neuroscience and **mental health** research projects to improve understanding of the nervous system and brain disorders. It encourages innovative and ambitious projects that address broad research questions. Eligibility is limited to applicants who have completed the pre-application process and received an invitation. The program does not fund clinical treatment randomized trials, PhD studentships, or publication costs. International researchers can participate as project co-leads but cannot be the main applicant. UKRI emphasizes ethical collaboration and thorough due diligence for international partnerships.

Leveraging Big Data for Enhanced Pavement Management

Federal Highway Administration

United States Department of Transportation

4 more sponsors

The selected candidate will explore the availability and variety of pavement-related and other publicly available data, assemble and fuse datasets for data cleansing and processing, and apply physics guided deep learning techniques to identify causative relationships. The goal is to enhance current pavement management applications and develop new predictive tools. The program emphasizes leveraging big data, artificial intelligence, and deep learning to improve pavement performance predictions. It is open to U.S. citizens with relevant doctoral degrees, at postdoctoral or senior researcher levels, with specific eligibility criteria regarding prior affiliations and research experience.

Checking Out Pre-solicitations, Awards, and Sponsors

Not only grants, but we also provide a comprehensive database of sponsors, pre-solicitations, and awards to create a complete award-seeking cycle to help you get insights into the grant cycle, so you will never miss any grants.

1. The [Pre-solicitations](#) page offers a database of the notices from sponsors, which provide a heads-up that a solicitation will be released and solicit capability responses from responsible vendors so that you will have sufficient time to prepare better for submitting applications later. You can find to-be-announced grants by keywords/phrases and available filters, as well as receive email notifications for the newest pre-solicitations that match your search setup.
2. On the [Awards](#) page, you can find who/what institutions were winning grants and what research topics have been funded by using keywords/ phrases and adding various filters. You can also set up email alerts for any new awards that match your search criteria.
3. The [Sponsor Directory](#) will show you over 20,000 sponsors worldwide on our system which can be searched by name or sponsor type. You can click on any sponsors to see detailed information and their grants on GrantForward.

Creating Your Researcher Profile

With a researcher profile, you will have a “homepage” that nicely displays your experience and publications, and you can start receiving automatic grant recommendations that are tailored to your research interests.

Claim Your Profile

1. Under the **Researchers** tab, go to the **My Profile** page.
2. Based on your name and email, GrantForward suggests profiles that may belong to you. Click on **Claim This Profile** under the suggested profile.

Claim an Existing Profile

If one of these profiles is yours, you can claim it. Once claimed, you can make further modification to your profile information, or use the profile as a source for grant recommendation.

Edit Your Profile

1. Under the **Researchers** tab, go to the My Profile page, choose Edit This Profile to make necessary edits.

2. Then, use the sidebar navigation to switch between different sections of your profile. For each section, click on the  icon to modify the information.

3. You can also set your profile privacy to "Public" to make it visible to everyone, or "Private" to hide it from public view.

4. In the **Scholarly works** section, click **Add new work** to provide different sources for the system to extract your works. You can add a Google Scholar/ORCID URL or text format. Then click **Submit**.

5. Besides adding the scholarly work, you can go to the **Keywords** section to add more interest keywords or edit any keywords listed in your profile.

6. After clicking on the **Edit** button, you can use the following icons for each listed keyword:  to keep the keyword permanently in your profile even when the system updates your profile,  to adjust the keyword's visibility, or  to delete it. Then click **Save Changes**.

Receiving Grant Recommendations

GrantForward can recommend relevant funding opportunities based on your research interests automatically, without any effort on your end. You can set up grant recommendations by following the steps below:

1. Go to the [Recommendations](#) page under the **Grants** tab to set up keywords that GrantForward can use to recommend opportunities for you:
 - a. Choose **Customize Keyword** to add your interest keywords manually or,
 - b. Click on **Update Keywords from Your Researcher Profile** to import the keywords from your profile directly. *(Note: Make sure you've already created a researcher profile before.)*

My Grant Recommendation

Recommendation is a powerful feature on GrantForward that allows you to find opportunities that match your research / study interests. You can also choose to receive periodic updates about new matching opportunities via emails.

You can set up your recommendation using the following option(s):

Customize Your Interest Keywords

GrantForward will use these interest keywords to match opportunities for you.

[Customize Keyword](#)

Use Keywords from Your Researcher Profile

Alternatively, GrantForward can import the keywords from your Researcher Profile directly and use them to recommend opportunities for you.

[Update Keywords from Your Researcher Profile](#)

Recommendation Email Frequency: Weekly

2. Choose the recommendation email frequency from the drop-down menu on the upper right.

My Grant Recommendation

Recommendation is a powerful feature on GrantForward that allows you to find opportunities that match your research / study interests. You can also choose to receive periodic updates about new matching opportunities via emails.

You can set up your recommendation using the following option(s):

Customize Your Interest Keywords

GrantForward will use these interest keywords to match opportunities for you.

Recommendation Email Frequency: Weekly

- No
- Everyday
- Weekly**
- Monthly

3. You can add filters (on the left) to further tailor the recommendations: e.g., if you are a researcher, you may want to exclude some student-oriented grants.
4. After finishing the setup, you can receive the recommendations via email, where each grant will have your interest keywords highlighted, or you can go to your Recommendations page on GrantForward.

For more guidance, you can view detailed instructions: [Tutorial: How Can I Tailor My Grant Recommendations?](#)

Exploring Your Personalized Homepage

GrantForward provides a personalized homepage to help you quickly see institution updates, personal updates, user groups as well as view GrantForward database updates and connect with potential researchers.

1. The Personalized Dashboard will keep your information up to date.
 - **Institution Updates** tab shows notifications of what administrators performed, such as changing your unit or permission, adding you to a group, or sharing a search template, a curated grant list, or a newsletter with you. You can also view those lists in this tab.

	Institution Updates	Personal Updates	User Groups
* Activity Feeds	Lucy N has added you to the group Middle Age Crisis Scientists . Mar 30, 2023		
Q Curated Search Templates	Serena V has published a Newsletter: Weekly Funding Newsletter for Lynn . Mar 15, 2023		
Curated Grant Lists	Lucy N has published a Newsletter: Early Career Investigator Submissions (Weekly) . Mar 5, 2023		
Newsletters	Lucy N has shared a Curated Grant List with your institution: Marketing Strategy . Mar 5, 2023		
	Lucy N has shared a Curated Search Template with your institution: Marketing Strategy Grant Search . Mar 5, 2023		

- **Personal Updates** tab displays the latest grant recommendations matching your research interests, updates from your favorite grant list, and new grants added to your saved searches.

Inventory Updates

- 13 Sponsors** were updated/added to the system within the last 7 days.
- 2879 New Opportunities** were added to the system within the last 7 days.

- GrantForward displays researchers within your institution and across all institutions so that you can find potential researchers for collaborations. You can also check the status of your profile-creating process and take a survey to give feedback on how we can improve our service.

Finding Support

If you want to find any product resources and materials to help you utilize the platform better, or you want to send questions or feedback directly to the GrantForward team, you can go to the **Supports** page.

1. On the **Support Home** page, you can insert keywords in the search box to find support materials on any specific topics or find the most popular features and related documentation to use the platform effectively.
2. The **Administrator Support** tab contains materials on administrative functions and marketing tools to promote GrantForward.
3. The **Researcher Support** tab includes materials to help regular users with matters about account setup, search function, and other basic features.
4. You can watch recorded training webinars for GrantForward users on various topics on the **Webinars** tab.
5. On the **Contact** page, you can find our contact information, ask any questions, or share feedback with us at any time.
